granted the Bureau under statute. However, the bill could be amended to give the Legislative Audit Bureau specific access to the records of the Authority. This clarification has been provided in the past to ensure access to information, including specifically granting LAB the authority to investigate Wisconsin Works agencies, the Milwaukee baseball park district, and the Green Bay professional football stadium district. Further, the Legislative Fiscal Bureau could be given specific authority to access documents and records of the Authority (similar to that granted to the LFB for the UW Hospitals and Clinics Authority).

19. The locks and associated federal land will become state property upon transfer. It may be argued that a restoration endeavor of this scope on state lands should be undertaken by a state agency, rather than by an independent authority. The local partners working with the state on the Fox Locks restoration project expressed a strong interest during the planning process in maintaining community involvement, including the investment and management of funds by locally-based non-profit community organizations. If the Fox Locks project were managed as a state agency, funds would be required to be invested through the State of Wisconsin Investment Board (SWIB). In the interest of involving the communities (who will be responsible for providing at least \$2.75 million in funding), the Governor proposed creating an authority. This may allow more freedom in establishing state and local collaborative fundraising and fiscal management efforts, while still providing a level of state oversight. On the other hand, there are a number of programs administered by state agencies which involve joint funding and management by state and local interests.

ALTERNATIVES TO BILL

1. Approve the Governor's recommendation to create a Fox River Navigational System Authority to rehabilitate, repair, replace, operate, and maintain the navigational system on the Fox River. In addition, transfer \$90,000 in 2001-02 and \$126,700 in 2002-03 from DNR's appropriation from the water resources account for the Fox River Management Commission to the Authority. Further, require DNR to set aside \$400,000 annually for seven fiscal years (\$2.8 million in total) from the recreational boating aids grant program to meet the state's match requirement under the agreement. Create a nine-member board, and provide DOA with certain oversight responsibilities.

<u>Alternative 1</u>	<u>SEG</u>
2001-03 FUNDING (Change to Bill)	\$216,700

2. Provide the following guidance for the Authority as relates to Chapters 30 and 31 of state statute:

a. Exempt the Authority from permit requirements under Chapters 30 and 31.
(Governor's recommendation)

4/ b. Narrow the exemption to include only dredging and other work associated with the actual lock structure but not the canal or the body of the riverway. The Authority would still be

required to consult with DNR and obtain permits for additional dredging or other work involving the canals or the body of the Fox River.

c. Do not exempt the authority from permitting requirements under Chapters 30 and 31.

3. In addition, specify that the Legislative Audit Bureau and the Legislative Fiscal Bureau be given access to records and information from the Fox River Navigational System Authority.

4. Further, specify that of the six individuals appointed by the Governor to serve on the Board of Directors of the Authority, two shall be from Brown County, two from Outagamie County, and two from Winnebago County. Require that three of the appointed members (one from each of the counties) reside in a municipality in which a Fox River navigational system lock is located.

5. Require Senate confirmation of the Governor's appointments to the Board of Directors of the Authority.

6. Prohibit DOA from accepting the transfer of any property associated with the Fox River navigational locks system unless at least \$10 million of the federal funding agreed upon under the memorandum of agreement has been appropriated by the federal government.

7. Create the entity as a state agency (the Fox River Navigational System Board). Create a segregated fund for Fox River locks restoration and create a SEG continuing appropriation for lock repair and restoration (to contain all monies received from the federal government, DNR and local communities for lock repair and restoration) and an annual SEG appropriation for navigational system operations to receive fees paid for use of the locks. Attach the Board for administrative purposes to one of the following agencies:

a. Administration

b. Natural Resources

8. Maintain current law.

MGG: /:....

I have spoken with Jeff Kuesel, who is our drafter with the most knowledge of ch. 13, and he informs me that under the budget bill, the Legislative Audit Bureau already has access to records and information from the Fox River Navigational Authority because it is included in the definition of "department" under s. 13.94 (4) (a) 1. as a "public body corporate and politic". See s. 237.02 in the budget bill.

If you want just one of the 2 members from each county to be a resident of a municipality in which a lock is located, this will need redrafting.
